School/Department	Req#	Business Title	Grade Level	Additional Details	Contact
Harvard T.H. Chan School of Public Health, Center for Biostatistics in AIDS Research	50972	SAS Programmer II	56	As a skilled professional, the SAS Programmer II enjoys a broader scope of work as well as the independence to conceptualize and implement tools and techniques that enhance statistical programming across networks by collaborating with researchers in an environment of mutual cooperation and respect.	Kristina Gravellese, kgravell@hsph.harvard.edu
Harvard T.H. Chan School of Public Health, Center for Biostatistics in AIDS Research	50974	Statistical Analyst/Programmer	56	CBAR is looking to hire a Statistical Analyst/Programmer for studies undertaken by the ACTG and/or IMPAACT. This position is responsible for statistical analysis and programming support for clinical trials and observational studies, including all aspects of work from study development through monitoring; interim, primary and secondary analyses; and dissemination of results.	Kristina Gravellese, kgravell@hsph.harvard.edu
Harvard University Information Technology	51710	IT Deployment / Refresh Manager	57	This is the perfect role for you if you're someone who loves being part of an energetic team that thrives on providing high quality service, you can lead the day-to-day operations necessary for the team to successfully manage their workload, and you're dedicated to applying your skills and experiences to leading and developing your team.	Brian M. Thibeault, brian_thibeault@harvard.edu
Harvard University Information Technology	51633	IT Service Management Specialist	57	The IT Service Specialist will be the first line of contact for Service Management and ServiceNow users and partners across Harvard. The Specialist will help to implement, communicate, and improve service management processes in order to enhance the reliability and value of IT and other services. The position owns the Incident Management and Major Incident processes and facilitates their best practice and continual improvement. This position offers a view into the inner workings of IT, the opportunity to learn more about service management and ownership, and the chance to improve the way IT is delivered at Harvard.	Brian M. Thibeault, brian_thibeault@harvard.edu
HBS, Executive Education IT	51353BR	Senior Business Systems Analyst, Executive Education IT	57	HBS's Executive Education IT seeks an individual to be part of a team that supports all the technology used to run Executive Education's programs: external website, Marketing Cloud for campaigns and inquiries, Salesforce for Customer Relationship Manager and Student Information System, Financial Force for invoice and payments, Learning Management System, StarRez hotel system and custom applications.	Jacques, Manouchka, mjacques@hbs.edu
Harvard T.H. Chan School of Public Health, Information Technology	51772	System Administrator	57	The System Administrator is part of the IT team that oversees a multi-site VMWare Horizon View virtual desktop infrastructure (VDI) environment, 100+ Windows, Linux and VMware ESXi servers both in-house and on AWS. The System Administrator will also collaborate with other members of the Server Team, maintaining and administering a network of Linux and Windows computer systems and related computing components including computer hardware, systems software, applications software and their administration. The position will participate in the implementing of security measures in order to protect data, software, and hardware.	Kristina Gravellese, kgravell@hsph.harvard.edu
Harvard T.H. Chan School of Public Health, Biostatistics	51862	Software Engineer	57	The Software Engineer (SE) is a subject matter expert that will lead the user interface development of WebMeV (http://mev.tm4.org) -- a cloud-based genomic data analysis software which focuses on providing biomedical researchers with a highly interactive genomic data visualization and intuitive workflow for performing complex genomic data analysis. The SE will collaborate with our team's senior leaders to develop WebMeV, and will be responsible for generating code (via JavaScript, Java, R and Python) to implement data visualization methods to summarize tens of thousands of data points, while allowing the visualization to be interactive.	Angelica Pezzuto, apezzuto@hsph.harvard.edu

Harvard University Information Technology	51726	Project Manager for Resource Sharing Initiatives	58	HUIT is seeking an experienced Project Manager to coordinate and facilitate the successful delivery of two high-profile library technology projects that will have major impacts on both user experience and library operations related to resource discovery. Both projects are intense collaborations with peer institutions and will require orchestration across departments within the Harvard Library, with peers at other institutions, and with commercial partner vendors who will be delivering sophisticated technology solutions. The Project Manager will serve as the liaison, facilitator, and coordinator for project working groups, partner technical staff, and stakeholder groups.	Brian M. Thibeault, brian_thibeault@harvard.edu
HBS, Executive Education IT	51399BR	Associate Director, CRM: Sales Cloud and Marketing Cloud	58	HBS's Executive Education IT seeks a person to lead and support the maintenance and ongoing improvements of Salesforce Sales Cloud and Community Cloud for Executive Education. Executive Education (ExEd) is a world leader in providing transformative leadership training to organizations across the globe through robust suite of programs, designed to help clients solve their strategic issues, which use the world's best faculty, offer an interactive learning experience alongside the most accomplished and diverse cohort of fellow participants.	Jacques, Manouchka, mjacques@hbs.edu
Harvard University Information Technology	51627BR	Program Manager	58	Reporting to the Managing Director of Administrative Technology Services (ATS), the Program Manager will be responsible for facilitating various projects to improve service operations across the Harvard's administrative technology portfolio. In collaboration with the ATS senior leadership team, business partners, and others across HUIT, the Program Manager will manage a portfolio of projects designed to raise comprehension of ATS services, streamline and standardize business processes, and develop organizational capabilities	Angie Boudreau, Angela_Boudreau@harvard.edu
Harvard University Information Technology	51825BR	PeopleSoft Application Developer	58	The PeopleSoft Application Developer will be a key member of an innovative technical development team responsible for project sizing, technical analysis, development, and ongoing support of my.harvard, Harvard's enterprise student information system developed on top of PeopleSoft Campus Solutions and Interaction Hub.	Angie Boudreau, Angela_Boudreau@harvard.edu
Harvard T.H. Chan School of Public Health, Information Technology	51809	Senior Salesforce and Web Developer	58	The Harvard T.H. Chan School of Public Health's Department of Information Technology is seeking a Senior Salesforce and Web Developer responsible for the implementation of a new customer relationship management (CRM) system -- Salesforce -- and the full stack development, configuration, and support of web applications.	Kristina Gravellese, kgravell@hsph.harvard.edu
Harvard University Information Technology	51735	Senior Technical Product Manager, API Platform	59	The Senior Technical Product Manager, API Platform will be the primary API Platform team liaison to API developers and consumers in support of Harvard's API program. The Senior TPM will have deep knowledge of the API Gateway, API Portal and all related technologies (aka API Platform) and will work with other Platform team members to help deliver on API program KPIs. As a technical leader for the platform, this role is expected to have specific knowledge of both the components of the API management platform as well as the underlying API technologies used to build and deploy end-to-end APIs.	Brian M. Thibeault, brian_thibeault@harvard.edu
